

MEPAU in the Mid West

NEWSLETTER | APRIL 2025

MITSUI E&P
Australia

Mitsui E&P Australia (MEPAU) is a WA-based energy provider with two facilities in the Mid West. MEPAU is a significant contributor to the development of a sustainable supply of energy for the nation and in addition to maintaining its energy resource portfolio, is pursuing new low carbon energy and carbon abatement opportunities.

Schedule of activities

MEPAU maintains an online Schedule of Activities that is regularly updated with planned activity information and timing – go to mepau.com.au

Progressive Decommissioning

MEPAU has a long and proud history of progressively decommissioning retired equipment and old wells across our assets in the Perth Basin as they reach their end of life.

This month, our Operations team decommissioned and removed two large horizontal tanks from the Dongara Production Facility (DPF), which is located ~16km southeast of Dongara.

The DPF will continue to be decommissioned over the coming 12 – 24 months, with the aim to move towards cessation of all production related activities.

Decommissioning is a normal activity in the lifecycle of gas projects. Its purpose is to remove or otherwise satisfactorily deal with structures, equipment and property in a safe and responsible manner.

As well as plugging and abandoning wells and removing property, decommissioning includes rehabilitation and carrying out any necessary monitoring of the site.

Support for the Big Tractor Continues

The Friends of the Big Tractor committee have been awarded a \$3,500 Mid West Community Grant to install lighting at the Big Tractor site in the Shire of Carnamah.

With the addition of new lighting in place, the tractor will be able to be enjoyed at any time of day.

It is anticipated that the tractor will boost visitor numbers in Carnamah, as a destination to stop and stay awhile.

Clontarf Foundation's Breakfast

It was a privilege to be included in the Clontarf Foundation's Welcome Breakfast for the Clontarf Cup held at Langley Park.

The Clontarf Football Carnival was a fantastic display of talent, with 200+ students from across Clontarf's WA academies competing for the prestigious trophy this month.

Joining them from the Mid West were students from the two Geraldton Academies based at Geraldton Senior High School and Champion Bay Senior High School.

MEPAU and our Waitsia joint venture partner Beach Energy are proud to partner with the Clontarf Foundation in support of their Mid West programs.

Congratulations CR TAFE 2024 Graduates and Award Recipients

We were delighted to join the 2024 cohort of Central Regional TAFE (Geraldton) graduates and award recipients to celebrate their achievements at the 10 April ceremony at the Queen's Theatre.

Together with Beach Energy, MEPAU sponsors the Major Award of 'International Student of the Year' to acknowledge a stand-out student who has truly excelled in their studies and embraced living in Australia. This year, the award was presented to Louise Hill who is studying a Certificate IV in Environmental Monitoring and Technology.

Louise has led by example throughout her studies and within the community, impressing the panel with her involvement in the local community, giving presentations about threatened ecological communities during National Science Week at a primary school, and regularly volunteering to go 'Boxhorn bashing' with the Northern Agricultural Catchments Council (NACC), as well as being a passionate sea bird rescuer and member of the Chapman River Friends Group.

Louise's involvement and contribution to the local community environment are inspirational and exemplary.

If you have questions or would like to find out more about Mitsui E&P Australia please get in touch.
