

MEPAU in the Mid West

NEWSLETTER | September 2026

MITSUI E&P
Australia

Mitsui E&P Australia (MEPAU) is a WA-based energy provider with two facilities in the Mid West. MEPAU is a significant contributor to the development of a sustainable supply of energy for the nation and in addition to maintaining its energy resource portfolio, is pursuing new low carbon energy and carbon abatement opportunities.

Schedule of activities

MEPAU maintains an online Schedule of Activities that is regularly updated with planned activity information and timing – go to mepau.com.au

76th Chapman Valley Agricultural Show

The 76th Chapman Valley Agricultural Show brought together families, local businesses and visitors from across the Mid West for a fantastic day celebrating community and the region's agricultural heritage.

MEPAU participated by hosting an information booth at the show and enjoyed connecting with people from Chapman Valley, Geraldton, Dongara and surrounding areas. It was especially rewarding to have so many young visitors stopping by with questions about what MEPAU does, and the team enjoyed sharing information about MEPAU's Waitsia Gas Plant operations, drilling and exploration activities, decommissioning and hearing local perspectives.

Events like the Chapman Valley Agricultural Show provide a valuable opportunity to connect face-to-face, build relationships and listen to the communities where MEPAU operates.

Supporting Coorow District Tennis Club

The Coorow District Tennis Club was able to deliver Junior Tennis Coaching and Cardio Tennis programs for the local community, after being awarded a Waitsia Community Grant.

This initiative received \$3,409 from MEPAU and Beach Energy's community grant program, which allowed the Club to receive qualified tennis coaching from a professional Sun City Tennis Academy coach from Geraldton who travelled to Coorow to deliver the programs. Sessions included three junior groups for children aged 3 to 12, and an adult Cardio Tennis program, with 36 junior and 16 adult participants.

MEPAU supports initiatives that improve access to sport and recreation in regional communities.

Celebrating the impact of SHINE in the Mid West

SHINE recently held its Supporters and Partners Lunch, acknowledging the achievements of young women participating in its programs.

MEPAU was pleased to attend the event and hear first hand from participating Year 10 students what a positive impact SHINE has had on their school experiences and personal lives. Through SHINE's advocacy and support, these young women are growing in confidence and emerging as future leaders for the Mid West.

MEPAU and Beach Energy are proud to partner with SHINE to support educational programs for young women across the Mid West, contributing \$150,000 over three years for their program delivery.

New swing for Dongara District High school

The youngest students at Dongara District High School are enjoying their new swing set, made possible through a \$4,000 Waitsia Community Grant awarded to the school's P&C.

The new swing set is a great addition to the playground, giving students more opportunities to play, explore and enjoy the outdoors.

The Waitsia Community Grant is funded by MEPAU and Beach Energy, who are committed to supporting local school and community initiatives that strengthen communities.
